Introduction

FBUA/UFBA

When the UFBA-FBUA was established, Europe was recovering from one of its most traumatic periods, and there have been other such times since then but our Union has continued and flourished throughout. I thank all those members who have contributed to so many successful gatherings over the years and the success of our student bursaries and drawing workshops.

Charles Dorin
Secretary-General FBUA/UFBA, 2019–present

L'UFBA vit depuis 100 ans ! Partager entre confrères notre intérêt commun envers la création et la transmission: l'idée pouvait sembler fragile, éphémère... un siècle d'amitié vient nous prouver le contraire, par-delà les frontières et les épisodes politiques ou diplomatiques. Nous célébrons cette année une date symbolique. C'est pour nous la chance d'apprécier la vitalité de l'UFBA-FBUA. C'est aussi l'occasion de reconnaître et de remercier tous les efforts assidus de ses membres, essentiels à la continuité et au renouveau de notre Union. Bon anniversaire à chacun d'entre nous, à l'amitié franco-britannique et à notre beau métier d'architecte!

Romain Gilbert
Président UFBA/FBUA, 2021

Franco-British Union of Architects

Union Franco-Britannique des Architectes

The purpose of the Union:

- Symbolise and preserve fraternal links between French and British architects.
- Promote professional and personal relationships and affirm their rights.
- Contribute to advancing education of architects and architecture in both countries.
- Encourage French and British architects to provide mutual service and facilitate communications to that end.

Le but de l'Union:

- Symboliser et assurer les liens confraternels unissant les architectes de la France et de la Grande-Bretagne.
- Améliorer leurs relations personnelles et professionnelles et affirmer leurs droits.
- Contribuer à l'avancement de l'éducation des architectes ainsi qu'au progrès de l'architecture dans les deux pays.
- Encourager les architectes Français et Britanniques de se rendre service mutuellement, et faciliter les intercommunications à ce propos.

Cent ans d'entente très cordiale

The structure of the Union:

- The Franco-British Union of Architects (known as the Union Franco-Britannique des Architectes in France) was established in 1921 and today comprises approximately 100 architect members split roughly equally between Britain and France.
- Professional experiences are shared through annual reunions as well as through running a number of educational initiatives for architectural students from both countries to encourage this.
- The Union is run through a system of parallel voluntary British and French committees with a system of rotating posts such as President, Treasurer etc. Regular committee meetings in both countries are supplemented by joint committee meetings in London in March and in Paris in October
- Membership is open to French and British architects and their partners are very welcome to join us at our events. It is not necessary to speak the language of the other country as our shared appreciation of good design, ancient and modern provides a shared experience although naturally many members are to some degree bi-lingual. Current membership cost is £45 pa and membership forms can be downloaded from our website ufba-fbua.com.

**Lauréat de concours médaille 2021/
Winner of the medal competition 2021:**
Pierre-Michel Hernandez, étudiant à
l'Ecole Boulle

Activities of the Union:

- Joint committee meetings in London in March and in Paris in October also involve building visits and architectural lectures, sometimes by our bursary students, open to the wider membership.
- The principal annual event is a reunion in a location of the coming president's choice over three days in May or early June each year alternating between Britain and France. This gives the opportunity for in-depth visits within a region typically away from the two capitals. It includes a black tie gala dinner as one of the significant events. Participation in events can be on a daily basis.
- While the aim is to learn from each other professionally, we enjoy good food in attractive surroundings in our beautiful countries and the social pleasures of each other's company.

Centenary Medal

La médaille semble composée de six pièces, réparties à égalité, entre deux motifs différents qui reprennent respectivement les caractéristiques des drapeaux français et britanniques.

Avers final

J'ai voulu m'orienter vers une extrapolation géométrique qui fait écho aux éléments architecturaux, aux structures métalliques,

Revers final

The medal appears to be composed of six pieces spread equally between two motifs which echo the characteristics of the British and French flags.

I wanted to turn to a geometric expression echoing architectural elements and metallic structures.

Lyon 2013
